

Session 3:

Many Disciplines. One Trust Network

Finally the 5/6G environment delivers connection to

- Anybody
- Anywhere
- Anytime
- Anything

As was promised in the development of 3G

This has changed the way we

- Produce
- Live Communicate
- Interacr

This has provided a lot

- Increased the general standard of living
- Reduced the digital gap
-

Now we are finally here - & challenges emerge in the way we

- Produce
- Live
- Communicate
- Interact

Climate change

AI/ Cybersecurity

Privacy issues

Young persons use of e-interaction

In the session we will hear talks & discussions of these challenges (less on climate) from technical, socio-economic & regulatory angles

We have a keynote speaker
Prof Huseyin Arslan

4 panellists

Abdullah Celik

Michelle Chibba

Bilge Baykurt

Alex Leadbeater
